

Foam Bookmark Kit Instructions

*If you are starting with large sheets of foam, cut bookmarks from the foam sheets (non-adhesive backed). Cut them to about 2" wide x 5.5" long on a paper cutter. Use a paper-punch to make a hole in the center-top of the bookmark as shown below. Also, pre-cut 8" length of yarn of any color/type.

Put these into each Ziploc baggie:

- 1 foam bookmark *(with hole punched in one end)*
- 1 piece of yarn
- 6 foam stickers - *(Have a good variety of shapes and colors & make sure all stickers fit on bookmark)*
- "We Hope You Have Fun..." insert

→Then carefully seal the baggie! Make sure any excess air is pushed out of the baggie. Thanks!
